Investor Release: 8th August 2019, Mumbai

Financials at a Glance:

We help businesses accelerate digital innovation, securely and efficiently

Commenting on the results and performance, Mr. Paresh Zaveri, Chairman & Managing Director of Aurionpro Solutions Ltd said:

“We had a muted quarter largely due to government as well as public sector being on a standby mode due to elections in India. Our direction and trajectory remains positive coupled with a healthy pipeline across all the segments of business, the coming quarters will progressively be stronger. The net revenue for the quarter, after adjusting transitional passover revenue pertaining to the divested IAM business, has shown positive growth on a YOY basis.

Our investment cycle is also reaching to an end by Q2 FY20 and we expect strong cash flows thereafter. Our subsidiary, Cyberinc has raised 4.5 million dollar in fresh round of funding, including 1.5 million from Aurionpro. This infusion will help establish Cyberinc as a recognized leader in isolation technology in coming quarters and result in strong upward momentum.

Further, during the quarter SC soft launched a spate of new products in UITP at Stockholm which have been well received and company is exposed to immense opportunities across several countries in new transit projects. Aurionpro will also complete it's 5 million dollars investment in SC soft by September end.

In our transit business, Noida is slowly increasing its ridership and we see continued uptrend month over month. The ridership will further accentuate over the next year on completion of its connectivity with Delhi Metro.

On conclusion, we are confident of sustained growth momentum to continue in foreseeable future.”

Result Highlights Q1FY20*:
