The Maximum Buyback Size represents 4.61% and 3.20% of the aggregate of the Company's paid-up Equity Share capital and free reserves based on the standalone and consolidated audited financial statements of the Company as at March 31, 2018 (being the latest available audited financial statements of the Company). Since the Maximum Buyback Size is less than 10% of the total paid-up Equity Share capital and free reserves of the Company, in accordance with the proviso to the Section 68(2)(b) of the Act, approval from the shareholders of the Company is not necessary.
  - The Board (or a committee constituted by the Board to exercise its powers in relation to the Buyback, i.e., the Buyback Committee), shall determine, at its discretion, the time frame for completion of the Buyback and may close the Buyback (which shall not be longer than (6) six months from the date of opening of the Buyback or such other period as may be permitted under the Companies Act and/or Buyback Regulations or as may be directed by the appropriate authorities). - Necessity for the Buyback and details thereof
  - The Buyback is being undertaken by the Company after taking into account the strategic and operational cash requirements of the Company in the medium term.
  - The Board of Directors of the Company is of the view that the Buyback will help the Company effectively utilize its available surplus funds, which is in excess of the surplus amount needed to be retained by the Company for the future growth.
  - The Buyback (including the Transaction Costs) will be funded from the accumulated surplus funds available with the Company in the form of cash and/or investments in fixed deposits and mutual funds, and will be drawn out of free reserves and the securities premium account of the Company, in accordance with Section 68(1) of the Act and Regulation 4(x) of the Buyback Regulations.
  - The Buyback is expected to enhance overall long term shareholders' value for continuing shareholders, without compromising on the future growth opportunities of the Company, as well as provide an exit opportunity to the public shareholders.
  - The Buyback will lead to reduction in outstanding Equity Shares, improvement in 'earnings per share' and enhanced return on equity, based on the assumption that the Company would earn similar profits as in the past.
  - Maximum amount required under the Buyback and its Percentage of the total paid up capital and free reserves
    - The maximum amount of funds reserved for the Buyback will not exceed ₹ 20.00 crore (Rupees Twenty crore only), being 4.61% & 3.20% of the aggregate of the total paid-up capital and free reserves of the Company, which is less than 15% of the aggregate of the total paid-up capital and free reserves of the Company based on the latest audited financial statements of the Company as at March 31, 2018 on a standalone and consolidated basis respectively.
    - The Maximum Buyback Size does not include any expenses or transaction costs incurred to or for incurred for the Buyback, such as, brokerage, filing fees, advisors' fees, intermediaries' fees, public announcement publication expenses, printing and dispatch expenses (if any), applicable taxes such as securities transaction tax, goods and service tax, stamp duty, etc. and other incidental and related expenses.
  - The Buyback (including Transaction Costs) will be funded from the accumulated surplus funds available with the Company, in the form of cash and/or investments in fixed deposits and mutual funds, and will be drawn out of free reserves and the securities premium account of the Company, in accordance with Section 68(1) of the Act and Regulation 4(x) of the Buyback Regulations.
  - Maximum number of equity shares that the company proposes to buy-back
    - At the Maximum Buyback Price and the Maximum Buyback Size, the indicative number of Equity Shares bought back would be 10,81,081 Equity Shares, comprising approximately 4.57% of the paid-up equity share capital of the Company based on the latest audited financial statements of the Company as at March 31, 2018 on a standalone and consolidated basis. If the Equity Shares are bought back at a price below the Maximum Buyback Price, the actual number of Equity Shares bought back could exceed the Indicative Buyback Shares, but will always be subject to the Maximum Buyback Size and shall not exceed 25% of the paid-up equity share capital of the Company.
  - The Company shall utilize at least 50% of the amount earmarked as the Maximum Buyback Size for the Buyback, i.e., ₹ 10 crore (Rupees Ten crore only).
  - The actual number of Equity Shares bought back will depend upon the actual price paid for the Buyback, excluding the Transaction Costs paid for the Equity Shares bought back and the aggregate amount paid in the Buyback, subject to the Maximum Buyback Size. The actual reduction in outstanding number of Equity Shares would depend upon the price at which the Equity Shares of the Company are traded at the Stock Exchanges as well as the total number of Equity Shares bought back by the Company from the open market through the Stock Exchanges during the Buyback period.
