# Commenting on the results and performance, Mr. Paresh Zaveri, Chairman & Managing Director of Aurionpro Solutions Ltd said:

We are pleased to announce strong beginning to current financial year and expect to continue the momentum in quarters ahead. We are expecting a phase of robust growth across all business segments. With solid performance and strong cash flows, we plan to become net debt free by October this year. Additionally, new product offerings are slated in coming quarters which include launch of a new product in transit space and cloud based offering of our banking products.

For Q1 results, we are pleased with the sustained strength in our performance. There was a significant uptick in the performance on all parameters. The revenue for the Q1 is at INR 115.80 Cr growth of 54% over the same period last year and more importantly net profit at INR 15.4 Cr. shows growth of 288% over the same period last year. The performance is particularly impressive in the backdrop of the disruptions caused due to the second wave of the covid-19 in domestic market and continued shutdowns in South East Asian countries. We expect to maintain healthy growth both in sales and profitability. We will continue to focus on improving operational efficiencies and underlying structure for future multi fold growth of the company.

On the business front, Banking and Fintech continues to post robust performance with more than 25% increase in the revenue. We are witnessing a good traction in all the regions. There is a healthy order book and a robust pipeline and with upcoming cloud launches we expect better traction and stronger momentum going ahead.

In Technology Innovation Group (TIG), revenue has doubled compared to the same quarter last year and the momentum continues to be strong. During the quarter in transit business we have focused on deepening our relationships with our partners and expect major order closures in coming quarters which will further help us strengthen our position in a rapidly expanding mobility market. Both on smart cities and data centre business we see continued growth acceleration. We are also strengthening our capabilities in terms of expertise and resources required for data centre business.
