The project includes delivery of SC SOFT's SCV 500 touch screen EMV validators, supporting validation of QR ticket.
 - SC SOFT has been awarded a master agreement by the Department of General Services (DGS) to participate in the California Integrated Travel Project (Cal-ITP), strengthening the firms position into the U.S. Automated Fare Collection market.
 - Order win from TP Western Odisha Distribution Limited (TPWODL), A Tata Power and Odisha Government Joint Venture, for setting up & operationalizing of its data centre in Odisha.
-

Commenting on the results and performance, Mr. Paresh Zaveri, Chairman & Managing Director of Aurionpro Solutions Ltd said:

“We are happy to announce FY 22 results, with improved performance on all counts. As we began the year, we focused on positioning ourselves as IP led platforms’ company... We simultaneously increased investments in sales and new product development. This has paid off and is reflected in strong set of numbers with consolidated revenue for FY 22 rising by 35% at INR 505 Cr., EBITDA rising by 33% at INR 112 Cr. and PAT rising by 125% at INR 76 Cr. The PAT margin improved to 15% compared to the 9% previous year.

We continued to focus on strengthening the balance sheet . As we complete our investment cycles in ATASPL and SC Soft during the year, we will start building cash reserves. With sustained growth coupled with the reduced debt, free cash flow and healthy balance sheet, all the key financial ratios have improved significantly. As promised earlier, we are happy to resume servicing the shareholders with a recommendation of dividend at INR 2.5 per share.

We are at the beginning of a long term growth trajectory, with all segments having tremendous growth potential. We will further focus on increasing our sales reach, through partnerships and expanding the sales teams across geographies. This will be bolstered by unifying our product offerings which will improve both size and scope of our customer engagements. With a combined order book and pipeline of over INR 2,000 Cr, we are confident to maintain the revenue growth rate as well as the margins for this financial year.

We will continue to launch new products this year for Banking & TIG vertical. The major focus this year will be on expanding our AuroPay platform and launch of a new B2B platform offering. We hope this will accelerate future growth at Aurionpro.

We are excited about strong growth opportunities as one of the few integrated global players in AFC space. Our recent wins including most notably of California has put us squarely on global map and we hope to consolidate our position further. The growth in the data center business will continue to be strong.

The disruptive phase of the pandemic have receded and the businesses are getting back to normal after a long phase of uncertainties. However, there are some new challenges faced by the businesses like shortage of talent, Russia Ukraine war, china lockdown resulting in supply chain disruptions, shortage of chip sets and strong inflationary pressures across the world. However, like the pandemic, we are confident to overcome these challenges and continue with the momentum.
