SC Soft, an Aurionpro subsidiary, announces win in the US market, expands reach in the transit segment

Mumbai, February 28, 2023: Anaheim Transportation Network (ATN) has selected SC Soft Americas LLP (SC Soft) to design and deliver a new contactless open payment solution for their public transit fleet. ATN's objective in implementing contactless payment system is to supplement the existing digital ticketing system with an open payment solution, thus providing a greater fare payment flexibility to residents, visitors, and employees throughout their service area.

The solution includes SC Soft's SCV500 Payment Acceptance devices, cloud-based automatic fare collection software, and the new state-of-the-art SC Soft multi-passenger and discount solution. SC Soft will provide this Software as a Service (SaaS) solution to ATN for the next five years.

SC Soft's multi-passenger solution

This new solution provides convenience to those riding together by enabling multiple passengers to board together while using a single tap to pay for the ride. Passengers will be able to board together and pay for everyone's fares use a single transaction, a single tap.

Anaheim Regional Transportation (ART), a division of ATN, is a fixed and on-demand public transportation system operating throughout the Anaheim region. Every year, over 10 million residents, visitors, and employees use ART to connect with employment hubs, transit connections, and local destinations in the region.

Sanjay Bali, CEO – SC Soft said: "This prestigious win is part of the California Integrated Travel Project (Cal-ITP), announced last year. We are thankful to the ATN, a transport agency in California, for giving us this opportunity to present our specialized solution. This further strengthens our position in the market and will broaden our engagements with transport agencies in the region."

About Aurionpro:

Aurionpro Solutions Limited (NSE: AURIONPRO) (BSE: 532668) is an advanced technology solutions company catering to the needs of Banking, Mobility, Payments and Government sectors. We converge multiple technology solutions under our umbrella, acting as one platform for Advanced and

Accelerated Platform-led Transformation, guiding businesses to ADAPT to a new paradigm in Digital. Headquartered in Mumbai, India, we are bringing this to reality across global locations, pillared on the expertise and commitment of 2000+ passionate people supporting the Aurionpro journey.
